I am delighted that we are publishing our first Company Engagement brochure for BNP Paribas Securities Services. For a large bank such as BNP Paribas, we have an important role to play in supporting the transition to a more sustainable future, whether this is creating products and solutions for our clients or supporting local communities and the most vulnerable in society during the Covid-19 pandemic. All of us – clients, employees, and local communities – have an important role to play.
About Company Engagement and Sustainability at BNP Paribas
At its core, sustainability is about acting responsibly today to protect the future.

At BNP Paribas, sustainability covers our responsibilities towards society and the environment. This means that we look to maximise the positive potential impacts of our business whenever possible and reduce its potential negative impacts.

Our company purpose – published in January 2020 – captures this succinctly:

"BNP Paribas' mission is to contribute to responsible and sustainable growth by financing the economy and advising clients according to the highest ethical standards."

We have a dedicated department called Company Engagement that sets BNP Paribas' sustainability strategy. Company Engagement operates across the bank, and within various business lines, including Securities Services. Its remit includes setting a strategy for sustainable finance i.e. facilitating the development of the financial services products and solutions that our clients need in order to meet their sustainability goals.

This brochure gives an overview of the Company Engagement strategy for BNP Paribas Securities Services, including how that supports the Group strategy.
BNP Paribas Group: Company Engagement strategy
The Group’s commitment to sustainability means that the bank aligns its Company Engagement strategy with the 17 UN Sustainable Development Goals.

**THE KEY WORK STREAMS OF THE STRATEGY ARE AS FOLLOWS:**

**CLIMATE CHANGE AND BIODIVERSITY**

This includes financing the green economy, be it renewable energies, carbon offsetting (through our ClimateSeed carbon offsetting platform), or green bonds, to name but a few. It also includes our sector policies for example on deforestation and our exit of thermal coal.

**ENTREPRENEURS**

This includes loans to microfinance institutions and social enterprises, and our co-investment in Social Impact Bonds. For example, AgriFed is a UN Women initiative supported by BNP Paribas, aiming to promote women and entrepreneurship. Through infrastructure and training, it will enable 15,000 female rice farmers and entrepreneurs to develop their business.

**YOUNG PEOPLE**

In particular, we look to support young people from disadvantaged backgrounds. For example, we are a founding member of L’Ascenseur, a high-profile equal opportunity initiative which brings together over 20 non-profit, private and public organisations in support of young people and their education and career.

**LOCAL FOOTPRINT**

We look to improve the urban, social and cultural environment in those places where we do business and have our operations. For example, we are a member of Business For Inclusive Growth (B4IG). B4IG is a G7 initiative led by French President Emmanuel Macron and overseen by the OECD. Business members have pledged to tackle inequality and promote diversity in their workplaces and supply chains.
